# WHO WE ARE

**Hobby  
Paint**

Hobby Paint is an artistic workshop that has tried to make public the experience of ceramic decoration for more than forty years through painting laboratories dedicated to people who wish to discover and learn this antique art, which is appreciated worldwide.

We have a large selection of items to be painted which are suitable for any age , customizable by cold colors (acrylic non -toxic) and baked (glaze and crystal) . We provide material to realize the task , teaching decoration techniques on white clay ceramic , typical of the Veneto Region . We shape logos and brands and our production chain is entirely **Made in Italy** .

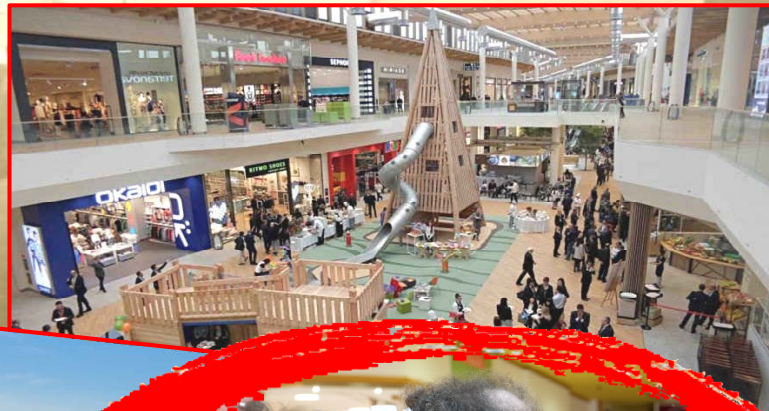

WHAT WE DO

Our proposal is directed towards touristic establishments , resorts , entertainment areas , kids' playgrounds or large shopping malls , for our laboratories are an attraction for the public , particularly younger people . These workshops allow people to perform both recreational and creative activities , raising interest and dedication in all age brackets .
